

Dear Provider,

As you know, Florida Community Care expanded our Medicaid transportation services to include an additional transportation partner: Ride 2 MD beginning June 1, 2019, in Miami-Dade, Monroe, Broward and Palm Beach Counties.

Florida Community Care is now announcing that beginning August 1, 2019, Ride 2 MD will be added to our existing transportation service providers statewide.

To arrange for transportation for one of our members, you will continue to call Florida Community Care directly at 1-833-322-7526, then press 3. Our Case Management staff will continue to handle the coordination of transportation on behalf of our enrollees.

By expanding our transportation offering, we anticipate further improving our enrollees' transportation services and experience.

Thank you for partnering with Florida Community Care!
