

The Voice of Our Members

Your voice as our enrollee is important to us! What you think matters as we make decisions and choose projects to improve your health.

We did not get as much response to our Enrollee Survey as we hoped. We would like all our members to have a chance to tell us how we are doing and get involved. Your response is your chance to have your voice heard.

Stay tuned for our next survey. That survey will happen in June 2020.

This year's survey gave a glimpse and this is some of what we heard from you:

- Most of you rated your home and community-based service support providers highly and would recommend them to your family and friends.
- More than two-thirds of you rated the staff assisting you reliable and helpful.
- Most of you stated you got help when you needed it with meals, medications, household tasks, bathing, dressing or toileting.
